Hello. I ordered last week and was told it was shipping out the same day but I never received a confirmation. Has this order shipped?

Thanks, Becki

Good morning,

When I spent \$270 yesterday on Stiiizy's someone replied right away for payment. Now that I have paid, its been 2 days since I ordered and I was told my stiiizy's would be shipped out that same day and I would get a confirmation email. I have not received anything and this is my second email. \$270 is a lot of money for me. Please respond and make me feel better that I didn't just get scammed.

Thanks, Becki
