Subject: Warranty Enhancement Program- ZE3
Certain 2010 – 2014 Model Year Prius Vehicles
Extension of Warranty Coverage to the Intelligent Power Module (IPM)

In our continuing efforts to ensure the best in customer satisfaction, Toyota is announcing a Warranty Enhancement Program to extend the warranty coverage for repairs related failure of the Intelligent Power Module (IPM). The vehicles covered under this Warranty Enhancement must first have Safety Recall E0E (launched in mid-February, 2014) performed (if applicable).

In these vehicles, Toyota has received some reports where the Intelligent Power Module (IPM) located inside the inverter assembly of the hybrid system may fail. This condition is indicated by hybrid system diagnostic trouble codes (DTCs): P0A94, P324E, P3004, **and/or** P0A1A. If one or more of these DTCs are detected, various warning lamps on the instrument panel will also illuminate and the vehicle will enter fail safe mode.

Although the Hybrid Inverter assembly is covered by Toyota's New Vehicle Limited Warranty for 8 years or 100,000 miles (whichever occurs first), we at Toyota care about the customers' ownership experience. Toyota is now extending the warranty coverage for repairs related to failure of the Intelligent Power Module (IPM). Please see the Warranty Enhancement Program Details for additional information.

Note: For California-certified vehicles sold, registered, and normally operated in Arizona (12MY only), California, Connecticut, Maine, Maryland (beginning with 11MY), Massachusetts, New Jersey, New Mexico (10MY-11MY only), New York, Oregon, Rhode Island, and Vermont, the Toyota New Vehicles Limited Warranty coverage is 15 years from the date of first use, or 150,000 miles (whichever occurs first).

The following information is provided to inform you and your staff of the program notification schedule and your degree of involvement.

1. **Owner Notification Letter Mailing Date**

The owner notification will commence in Late August, 2014 and will be mailed over several months. We have attached a sample owner letter for your reference.

2. **Warranty Enhancement Program Details**

This Warranty Enhancement Program provides an extension to the vehicle's "New Vehicle Limited Warranty" for repairs related to certain internal malfunctions of Intelligent Power Module (IPM). The vehicles covered under this Warranty Enhancement must first have Safety Recall E0E performed (if applicable). If the condition is verified, an appropriate remedy will be performed under the terms of this Warranty Enhancement Program*. This Warranty Enhancement covers failure of the IPM and other internal inverter components potentially damaged by IPM failure.

This warranty enhancement provides coverage for **15 years with no mileage limitation from the date of first use.**

**This coverage is for warranty work performed at an authorized Toyota dealer only. It is subject to the same terms and conditions set forth in the New Vehicle Limited Warranty Section of your Owner's Warranty & Maintenance Guide. For example, damage from abuse, an accident, theft and/or vandalism is not covered by the New Vehicle Limited Warranty or this warranty enhancement.*

Model	Model Year	Production Period	Appx. UTO
Prius	Certain 2010 – 2014	Late March, 2009 through Early February, 2014	711,000

Please refer to the Warranty Policy Bulletin (Bulletin No. POL14-05) for warranty claim processing instructions. *All parts replaced for this repair are subject to warranty parts recovery*

- For technical instructions of replacement of the Intelligent Power Module (IPM) please refer to the repair manual on TIS.

As this is an extension of the warranty, most customers will only request reimbursement from TMS for past replacements. Dealers should not increase parts stock for this Warranty Enhancement. As always, if a customer experiences one of the conditions described, dealers should conduct appropriate diagnosis and order the applicable parts.

Dealers are requested to only order parts for vehicles experiencing this condition. **DO NOT ORDER FOR STOCK.** The parts have been placed on Dealer Ordering Solutions and will be systematically released daily. Please see the weekly manual allocation report for additional details.
