I am not impressed with these people at all they do not answer their phones did you not follow through with your health, do not follow through with your medication, and they allegedly have a guarantee that the medication will work. But yet when you try to let them know that the medication they prescribed didn't work you never hear back from them so I'm very leery of this

company and I'll be honest with you and completely disappointed in everything about them. I've called them over 26 times today and no answer this has been a constant problem with them they're not answering their phones or responding to emails. Look at my phone log you will see their number the one 88 number is their's and you could see that I've called over 30 times.

I ordered medication on 12/6, they charged me \$200 additional dollars after giving them \$3,000. The phone operator said I would get the product overnight UPS. I called back 12/16 still no product, the phone operator said it was in the office. I referred back to my conversation on 12/6. Here it is 12/29 and still no product. I feel over 20 days is unsatisfactory. I want to cancel my contract and will return all unused product. DISGUSTED!!!

Please beware of this place. TOTAL SCAM
They want to give you a great presentation and very professionally...at first. They break down that you need creams and pills and 12 month commitment.
Bottom line is the 5400 dollar price tag
Total scam to me

So i went to this place yesterday and did the test and paid the \$149 fee.
They want to try and scam ypu for \$5000, honestly they were so pushy like a time share...

Don't go here. They are a joke. \$5000 for something I didn't even need and then they refused to help me out once I got their medicine and it all expired a month later. It should've been good for a year, and they said it doesn't really expire. But if I'm spending \$5000 on medicine I don't want

you to give me something that says it's expired. Total rip off with complete disregard but for their patients. Sad to see that they are raping everybody of their money during this global pandemic. Shame on you.

Awful!! Completely awful, if something goes wrong trust me there is no one there to help. We have huge medical bills after using this and we called and called their emergency number and never got an answer. Brian at the location promised help, said he was going to do what he can, what a liar! Now we paid a lot of money for the product and have double the medical bills with no offer of help. If you use this just remember their is no one on the emergency line!!

Despite it's ad claim, "and best of all, it's affordable,"this place is the text book definition of a rip off. \$1000+ to start, another \$900 for an Rx refill for a medication that costs less than \$100, and on and on....Save your money and aggravation, explore other, more affordable options.
