to me, Jamie

Hello there and congratulations Partha!

It's Jamie Lewis here and we just got your payment for our Black Friday special!

One custom offer + One Shopify! (Plus everything else that comes with it.

YOU'RE IN!

Let's build the most incredible Internet Offer/Businesses ever! We'll also be there for you for LIFE through this gmail thread as you can consider this an ongoing relationship with me!

Great to be working with you. As we were talking via email, we will get right on the project asap and ensure we will be up & running ASAP, depending on the complexity.

As explained, this is actually "DONE FOR YOU" and we deliver custom logos, graphics, copywriting, integration and all of the traffic swipes. It is extremely important that you trust our methods and guidelines to ensure we can meet our promised deadline.

So please read this entire email carefully. I will explain the order of events, technicals, guidelines and niches.

So let me jump into it, here is our official Gmail thread and yes, this is my personal email and this actually Jamie Lewis, CEO of Champ Entertainment, Inc.

I cc'd specialprojectwithjamie@gmail.com as Mike and myself will be accessing our project so anytime you reply, make sure to "reply all." It is common for these communications to fall behind if both email addresses are not included in your replies. We'll also be sending a Basecamp invite.

To ensure that your project is finished in a timely manner and to perfection, I have some handy guidelines to share.

Here is our "Todo" list as these projects are step by step:

1. Choose a digital product niche for your CUSTOM OFFER and then a SHOPIFY ecom product niche with our help
2. Choose two domain names that we mine for you
3. We will then get to work writing, doing graphics and integrating. During this time, please be patient while we build the infrastructure of the site, knowing when it is done we will regroup and I will present you with a traffic model which you will have to choose.
4. Choose a traffic model for the completed site.
5. LAUNCH

Guidelines:

1. Keep messages and correspondence with me straight to the point and professional.
2. Always "Reply all" so Mike is included in our correspondence.
3. We will use both Basecamp and my personal email here to communicate. Having both ensures you will always get through to us! :)
4. We never say no to a request if it is specific. If there is a non-specific message we will ask you for clarification and will be seeking a request.

NICHES:

We need to lock down niches. And then after you let us know which one of these niches you would like us to develop on, we can find the domain for you. (We mine multiple domains for you to choose from, (Really good ones too))

FOR YOUR CUSTOM OFFER:

We tend to gravitate towards these niches/angles when a partner asks our opinion:

*Internet marketing

*Traffic/SEO

*Domaining

*Bizopp

*Crypto

*Work from home

*Youtube Marketing

*Email marketing

So it's up to you which niche we jump into.. just get back to us (Reply all of course) and let us know what you would be comfortable with.

FOR YOUR SHOPIFY STORE:

Here are the products/Instagrams we can do and recommend:

Streetwear - Sneakers

Makeup - beauty

Babies - baby items

Jewelry accessories

Watches

Denim Fashion

Bling

Weed lifestyle - waterpipes, merch, etc

Camping

Bodybuilding

Which one looks good?

And I will send you \$90 for the first 3 months of fees! Just need your Paypal.

Can you supply me with your Paypal email?

And it is truly great to have you and have you on our team.

Let's create an amazing case study with you ASAP.

Let me know your thoughts and looking forward to the project.

Talk soon and thanks so much! It's going to be awesome.

Sincerely,

Jamie Lewis

Hi Jamie/Mike,

Many thanks for this warm welcome! I really appreciate it.
Also, I am very excited about this project.

Before choosing my offer and the Shopify niche, I request you to please go over the following queries:

- 1) I understand this is about creating a Shopify store. But your VSL has shots of ClickBank paychecks in the sales letter? What is the connection between Shopify and ClickBank? Will you be creating a digital product and list it on ClickBank?
- 2) Besides the course fee, what are the other things I need to invest in?
- 3) Do I have to run paid ads or organic traffic will do? If paid ads, then what should be my ad budget per month?
- 4) I must tell you this. I am from India where TikTok and AliExpress are both blocked. Will this affect my scale of earnings?
- 5) You would know that the Instagram algorithm works differently in different countries. If you are going to buy me a US Instagram account, will it work effectively while being downloaded/accessed in India?
- 6) The VSL says, \$30k in the first 30 days or money back or you create another free account. I would be happy with just \$10k instead. Can I expect to make \$10k consistently every month?

Thank you,
Partha Mitra

to me, Jamie

Thanks for the response Partha! It's truly great to meet you and I'm looking forward to a long business relationship with you! Hopefully you're our next #1 super affiliate as well! (If you feel up to it)

Hey many of your questions I would love to answer but I need to follow FTC guidelines, the government is no joke! It depends on if you are alive and not in a coma etc! Know what I'm saying? I'm mainly referring to the blatant ask of if you'll do a consistent 10k a month. Eek!

Yes, my guarantee says basically "Dont make sales? we'll build you another site for free. or "Your car doesn't go 0-60 in 4 seconds? we'll build you another one. So that's compliant but me saying "yes, you can expect \$10k a month yikes! know what I mean?

So we find another fulfillment source not aliexpress! :) Yes, you are getting a SHOPIFY and a CLickbank site. It explains the Black friday deal is BOTH sites.

Yes, Instagram will work!

NOTHING more for you to invest in, we pay for everything right now like the domains and everything! :)

Hi Jamie,

Thank you so much for this elaborate response.

(About your guarantee part, you do have a 30 day money back guarantee as in the VSL; but I am quite sure it wouldn't come to that).

Coming to the niches, any niche I choose, will it rank in Google USA or Google India? (Considering that my target market is the US, I would like it to rank up in Google USA).

1) Custom site niche - Crypto.

2) Shopify niche - Makeup beauty.

PLEASE SUGGEST OTHER NICHES IF YOU THINK THESE AREN'T GOOD ENOUGH.

I am really looking forward to this whole thing!

Hi Jamie,

The Custom Offer niche which I have told you - Crypto. I think this very exclusive. There wouldn't be many takers.

The other niches in your list - Internet Marketing, Bizop, and Work From Home.

What is the difference between Internet Marketing and Bizop?

Hi Jamie,

It is quite evident that either you are in a rush or you are accessing your emails on a mobile. You are absolutely responding to me over here; I am not denying it. But I have posted my concerns at your Basecamp site, to which you are yet to respond. Those are very critical to my Shopify store (AliExpress blocked and Shopify collaborator access).

Let me emphasize that I have put my utmost trust in you and your program. I have said before, I am not gunning for your \$30k/mo figure; I would be rather happy with around \$10k/mo. So, you shouldn't be stressed out on that front. As for me, I am on the edge! (You know what I mean).

I really want this venture to work for both of us.

Hi Jamie,

I understand that the link <https://internetbizdesign.com/> is live. I find some corrections are required:

- 1) Kindly check the first screenshot. The two yellow arrows need some work to do - First one shows 'Image Format Not Supported'. In the second arrow, the period after .com needs to be removed.
- 2) This Jamie's video is from his old course. Is it alright using his old video for my digital product?
- 3) Do check the second screenshot. As I am a guy, the image of a girl seems misplaced. It needs to be changed with a guy's image.
- 4) Third screenshot - grammar error.
- 5) Fourth screenshot - inconsistency in guarantee and a period after 'Reserved' is required.
- 6) It doesn't have a price point. We have to put a price at [Insert Price].

I will go over the traffic videos and let you know today itself.

Partha

I am not in a rush. I start every email personally as I explained in the initial one I sent out. I respond via email here.

Basecamp is for my team mainly, because you have my email here. Clients do put me on edge when there is no reason to.

I have many clients and thankful that this does not happen often (As I make myself available)

I will relay your requested changes to the team, as you should as well, but yes watch the traffic videos and then I will be stepping in as always and duplicating, designing, etc.

- 2) What exactly is Explodely? Is it an affiliate network?
- 3) While registering (as an affiliate) on Explodely, I am required to give my 'Username (i.e., product name)'? What should be my product name?

Kindly let me know since this has remained unanswered in Basecamp.

A.) Shopify has a couple of ways to access my account. 1) Collaborator account. 2) Staff account. 3) Or I give you my email id and password. From what I understand in the Shopify Help section, Collaborator account would be appropriate as you will have permission to access my account. If you were to use my email id with password, from the US, would I risk losing my account? Kindly advise.

B.) As you had requested earlier, my PayPal id is partha.collector@gmail.com.

Hey Partha, Its hard to explain.. but as you could imagine me replying to emails has to come with certain boundaries, rules etc.

Most people in my position would NEVER do this because of arguments over basically nothing. Its much "smarter" to have customer service deal with customers right?

So most people understand this, to take it easy on Jamie lol

Again, Im always here and most people use this email. Arguments and debates not really a good idea here. The alternative without placing blame on the country of origin would be alot worse and could be insulting.

Hi Jamie,

A.) Kindly see to it that the corrections have been made for [\[https://internetbizdesign.com/\]](https://internetbizdesign.com/). (You have said that the site has been made live!)

B.) Second, you have sent this video - <https://www.youtube.com/watch?v=VwCApZalixM&feature=youtu.be>. Now this has 3 options - Squeeze swaps, Vendor Sites, and Solo Ads. 1) For Solo Ads, do I have to invest in the ads or you will do it for me? 2) The other two (squeeze swaps, vendor sites), will they require investment too? Please pick a method for me which doesn't require any investment.

C.) Third, the traffic strategy video - <https://producerjamie.clickfunnels.com/dialjamie-form146zqjvy>.

1) The ClickBank video talks about doing 'Cross Promos'. I wonder how I can persuade any vendor on ClickBank to do cross promos for me when I am just starting out? What will I offer to that vendor?

2) On Instagram, in order to promote my internetbizdesign.com, I understand you will provide the post and the reels?

3) TikTok is blocked here, in India. Can I use a VPN?

D.) What is your Facebook Group?

I request you to go over each of the above points and then respond.

Hi Jamie,

I repeat again.

Flippa doesn't appraise sites less than a year old. In one of your traffic strategy videos (the Instagram one), you have mentioned that a website without any followers or sales can make around \$2000. Could you please explain?

Regards,

Partha

Jamie Lewis

Dec 18, 2024,
8:38 AM

to me, Jamie

Hi Partha, No need to repeat.. :) That is incorrect. One of my case studies (And on my Flippa account) it shows I have sold multiple \$400 godaddy stores (It was a technique for flipping domains, an easy install) but these were not fully fledged original creations.

Yes, it is called a "Starter" site when it is less than a year old. You absolutely can sell a starter site, brand new shopify store or an App.. as well as just domain names.

When a site makes money the amount it makes each month is multiplied usually by 12. Thats one year. Now if the site is making less than it was before, buyers will see that in the graph, and can cause your site to wane in value.. so sometimes X6 or nothing at all.

Also, if it makes ALOT it is harder because people dont have \$500,000 etc but they have \$50k.. thats a great sweetspot Ive noticed.

However if your site is amazing, you invested \$100k into it, etc sometimes a buyer can do 20X even if it doesn't make money of course. But this is hard to do on FLippa.

Now with Starter sites, a non-exclusive site that has copies of it and not it's own domain, were looking at \$75.

If it's an original site, page etc.. or a Ecom infrastructure it can be \$400 to \$1500 depending on the quality. This is without traffic, leads, sales etc.

Now if it is really good quality, with original copywriting and graphics or a unique theme for an ecom site (And Instagram account etc), you can sell it for \$2000.

Hi Jamie,

Let's do the "Cross Promos".

How long will it take to create the two projects?

There are multiple unresolved issues and it has been 20 days now! If this is the rate at which things are going, I wonder how will this business make \$10k in the next 10 days (forget \$30k in 30 days)?

Partha

Hi Partha! The good news is with the cross promo model we actually scale down the offer so it's just a squeeze page like offer.com/squeeze your existing long form stays the same etc.

Im doing a webinar at 8PM you should come!

Hi Jamie,

Not one of the two businesses has been completed. How are you going to stick to your \$30k in 30 days challenge? And then you say that you will create another business, but what good will that be? After spending \$700, what should I do with 3 businesses without having immediate returns?

Was it my folly that I fell for the easy money and maxed out my card?

The only option left for me is to exercise my option of the 30 day money back guarantee.

Let me know.

Partha

Hi Jamie,

I am calling it quits. It is not working.

There's no point going further. Do stop my projects immediately.

Partha

Hi Jamie,

I am deeply frustrated with you guys not responding. Very amateurish!

I request you to make the refund at the earliest.

This has been a very terrible experience for me - putting faith in your system and being falsely led to believe that this will work! Why did you guys bring out this program when you can't fulfil it?

Regards,
Partha

Hi Jamie,

You got to refund me. 20 days was a long enough time to get atleast 1 business done. Is not responding being professional?

Partha
