Dear linguist lover,

Please read the instructions below and register. Once you will, my colleagues from recruitment will receive your profile and in a couple of days you will receive an email from them saying if you were accepted or not.

About Universal Translation Services

Thank you for your email in which you show your interest for working as a language specialist within our company. Let's first introduce ourselves. We started 21 years ago and have proven to be the fastest translation agency on the planet. We care about our translators and our system is therefore different from other translation companies on the planet.

Your productivity is important and that is why we have a special team available to help you with technical problems during your translation process, provide Cat Tools training for free and assist you with IT problems should you encounter any. They are available 5 days a week. During the weekend, a project manager is on duty to answer any questions that you may have.

Our Software

For contacting us live and having access to all the jobs offered in your language combination, we have special online software that you can use. Please note that it works only in google chrome!

Please register through this software and upload your curriculum vitae and set your mother language as well as your target language.

Receiving job notifications on your mobile

Our payment

We are the fastest paying agency on the planet as we pay during the first week of every month for all the jobs that are completed the month before so you can earn a regular income.

We also know that we are not the highest paying agency but we do offer advantages for you as a translator which other agencies are not doing. The price we pay per word is 0.03 euro for translation/0.005 per word per proofreading. You are free to decide if you want to work with us. Soon, we will have the online platform available where you can speed up the translation process with even 6000 words or more per day with implemented glossary list and more tools to translate accurately at amazing speed!
